

One Time

Bizzle

C-Life on the beat

Who'd have knew He would save me?
Just a boy from the block you know
Been a sinner since a baby
Never really knew the Father, though
Still, He with and He forgave me
All glory and the honor go
To the Most High, He my soul tie, He been doing the impossible

Give it up for the Lord one time
More like that one time (Yeah)
Wanna try just one time
But it ain't just one time
Give it up for the Lord one time
More like that one time (Yeah)
Wanna try just one time
But it ain't just one time

Never mind me, I'd be on my God tip
There's Panama and a weapon like attacking, night and night I get it popping
The devil lied, so let me clarify if he deceive me, he will not win
Remember, guys, and if you spell it right, it ain't no L in Christ, God wins
Tell 'em that we've got the victory and the blood of the same
If you put every bit of your trust in His name
Seeing it when I was living crazy, seeing that He could never love me the same
Doing whatever just for the paper, even when I was running astray
If I would ended up with the paper giving my soul up on the way (Yeah)
God over money, the movie, rent it, I keep it a hundred and two (Yeah, hundred and two)
In love with the Son, we under His covenant, come and get under it too
He's coming for you
And that could be terrifying and be wonderful news
His first coming to this Earth wasn't to be served, took what we deserved from us, now He's coming to rule (Yuh!)

I've been waiting for that day so we can all sing His name
He is holy, praise and glory, Lamb of God that was slain
So I share my testimony 'til it all goes away
Hallelujah, God You're worthy of it all...

Who'd have knew He would save me?
Just a boy from the block you know
Been a sinner since a baby
Never really knew the Father, though
Still, He went and He forgave me
All glory and the honor go
To the Most High, He my soul tie, He been doing the impossible

Give it up for the Lord one time
More like that one time (Yeah)
Wanna try just one time
But it ain't just one time
Give it up for the Lord one time
More like that one time (Yeah)
Wanna try just one time

But it ain't just one time

I'm back (I'm back)

It's business with Bizzle, pretend I'm a window, my God, relax (Relax)

We're climbing that summit, we're sittin' in that Hummer, He takin' me back
(Way back)

Can't forget all the times He kept me from dying

Changing states helped my state of mind

It's all at stake, I get them by surprise

God said you can make it (I get graphic)

I'ma wearing letters (smoke the cabbage [?])

Never been so broke (You break your habits)

I hit my knees (I'm fin' to pray)

Thankful God can get me out the way

My focus right, I'm stayin' right in His face

I checked the mic and say it by His grace (By His grace)

Look, lift my hands and I honor Elohim

I was broken 100 my chain [?] right to the Father where I be feelin' weak

I pull back all the places I hurt

I'm hanging by the rope and not His word

Dancing with the devil in a skirt

Only getting peace when it's the first
