Bizzle

Stand up
What you so quiet for?
Lets'go
Bizzle
God over money
Yeah
They're saying if you scared go to church
Like we just over here sittin scared in the church

I won't sit back
Naw homie, I ride for a living (for a living)
Homie I ride for a living
You can't kill me, It's to late
I die for a living (for a living)
Homie I die for a living
Send a prayer to the sky
Murder my desires
Open up the canon let 66 fly
Believers dont die
He's God of the living
He's the God of the living
Yeah, so let's ride

Wake up in the morning, thanks to Yeshuah
I was heart broken, He gave me a new one
Caught choking
He came with the heimlich maneuver
So I never leave his side like stripes on a puma
I abide in the vine, I got saved once but
I probably put my hand up 5 different times
They say you get to heaven by reciting these lines
But I never read the book to realize they was lying
I thought I had a sin-free pass on me
Bought for a price Christ paid the tag on me
First and the last, I swerved off the path
When I shoulda hit the tree
He took the worst of the crash for me
I never knew a love like He's given me
And the love that He give is free
So many times messed up He's forgiven me
Who you know running round making loved ones out they enemies?
And if it's anything I know at all, I owe it all
Til it's back cracking like Adam, before the fall
The Lord said go so we going hard
So we ride til we die like it's protocol

I won't sit back
Naw homie, I ride for a living (for a living)
Homie I ride for a living
You can't kill me, It's to late

Yeah, so let's ride

Living in the fast lane paved with a curse
Riding with de devil so I raced in reverse
Pedal to the metal trying to reach last place first
But what good is first when the checkered flag's in a hearse?
I woulda died if God ain't take the wheel from me
It was suicide Lord God took the steel from me
Running up a sin tab Christ paid the bill for me
Took Him for a joke then He made it all real for me
I wondered if I'd gone too far
I guess I never knew what kinda God You are
I was just a prodigal son thinking after all the ways
I dishonored you
I would be shunned if I came back
But I was embraced as your kid
You ain't even wanna talk about the things that I did
I couldn't understand so you gave me some kids
Now I get to see daily the way you forgive
And if it's anything I know at all, I owe it all
Til it's back cracking like Adam, before the fall
The Lord said go so we going hard
So we ride til we die like it's protocol
