

# Red Light, Green Light

Bizzle

Red light (Red light), green light (Green light)  
And we might (Gah)

Go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way

It's God Over Money, baby, you know (Yeah)  
I never let them tell me, "How do you know?" (Yeah)  
They tell you, "Pick it up, you're going too slow" (Yeah)  
They beggin' you to stop when you do, though (Ayy)  
But we gon' get it poppin' all night (Ayy)  
We gon' lift His name up high (Ayy)  
Knockin' over every stop sign (Ayy)  
They strap us down here, we take five (Woo)

Hallelujah to the One that saved us (Ayy)  
Love You, God, yes, You are our Savior (Ayy)  
Loyal to the soil that will change us (Ayy)  
In the hands of the prophet, they can never break us

Red light (Red light), green light (Green light)  
We don't pay attention to the streetlights (Streetlights)  
Red light (Red light), green light (Green light)  
And we might (Gah)

Go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way

Whole block gangin' when we roll up (Yeah)  
Menace to the enemy, or worse (Yeah)  
Everybody lookin' like we on one (Yeah)  
Who higher than Messiah, homie? No one (Ayy)  
One day, we gon' met up in the sky (Ayy)  
Till that day happen, I'ma ride (Ayy)  
Yeah, we 'bout the faith in that sign (Ayy)  
Reppin' G.O.M. till we die (Woo)

Hallelujah to the One that saved us (Ayy)  
Love You, God, yes, You are our Savior (Ayy)  
Loyal to the soil that will change us (Ayy)  
In the hands of the prophet, they can never break us

Red light (Red light), green light (Green light)

We don't pay attention to the streetlights (Streetlights)  
Red light (Red light), green light (Green light)  
And we might (Gah)

Go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way (Zauntee, yeah, yeah, yeah, yeah, yeah)

The only Zauntee, God taught me  
The zealot gang 'bout to cause a ruckus  
Focused on my shots like the paparazzi  
Then I popped off and start gettin' buckets  
We been out here makin' news in the game  
Go tell the squad that we gunnin' (We gunnin')  
It's like Jesus was standin' on top of a bank  
You know he's countin' my money (Ooh)  
Keepin' real with the five thousand  
Diamonds on me like a fountain  
I be shinin' so brightly, look like Moses when he left the mountain  
I've seen people and I've seen God  
And only one of their opinions matter  
I ignore the first and find the winded ladder  
Elevated like I climbed the ladder  
Home run, hey, batter, batter  
Swing for me, so I don't hear the chatter  
You keep my wrist and we seein' a pattern  
You don't want no smoke and we climbing to Saturn  
Watch how you talk to me, hey, yo  
You cannot walk with me, hey, yo  
'Cause I got my God with me, hey, yo  
Nobody stoppin' me, hey, yo

Red light (Red light), green light (Green light)  
We don't pay attention to the streetlights (Streetlights)  
Red light (Red light), green light (Green light)  
And we might (Gah)

Go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way  
(Red light, green light, go, red light, green light, go)  
We might go all the way
