

Set It Off

Bizzle

Set it off
I keep a cannon, I let it off
I let it blame on the predator
It's God over money, etcetera, etcetera
I'ma set it off
I keep a cannon, I let it off
I let it blame on the predator
It's God over money, etcetera, etcetera

I got a mission, I'm writin', I'm fishin'
I'm live with the flip if you get in the way
The light I've been given providing the vision
The liars and villains are fillin' the way
I got a feelin' they gettin' replaced
I gotta gift and I mention it's great
They mine in the prison when I'm in the kitchen
I'm writin' and whippin', I'll give 'em the way
'Bout that life, we livin' it (Uh)
Spice and I keep slippin' in (Uh)
Lightbeam, Christ delivered it (Now look)
My team highkey killin' it (Uh)
Glory to God, we givin' it (Uh)
Mercy and grace, we livin it (Uh)
For sure He already forgiven it (Uh)
On court they was givin' it (Uh)
I gotta teach people I know
Jesus more than even before
Now that they keep evil awake, they see in the Earth, reap what they sow
I've got a feelin' He finna show up within the next century or so
And when He do show it'll go up
Get in the whip if you finna roll

Set it off
I keep a cannon, I let it off
I let it blame on the predator
It's God over money, etcetera, etcetera
I'ma set it off
I keep a cannon, I let it off
I let it blame on the predator
It's God over money, etcetera, etcetera

In it for the Most High, oh my
No lie, don't try Christ gang, oh my, yeah
I don't wanna blow my whole life on a gold mine
When I go my soul die, yeah
Do it for the ones in gutter (Uh)
This 'bout guns and butter (Uh)
There's a whole lot of haters (Uh)
But this for the ones that love us (Yeah)
Never gon' shut up, whether or not the numbers ever do run up
I'ma rep mine for the next nine summers
Prptect mine with a tech nine, don't run up (Ah)
I know it's hard lovin' your enemy (Enemy)
But I gotta remember what He said to me
Eventually you gotta become what you pretend to be (Uh)
He forgave me and said keep the same energy
Amen, let it be
