

# Still Ridin

Bizzle

Up and down round and round we go  
Where we'll stop I hope somebody knows  
Life goes up and down round and round we go  
Where we'll stop it's only God who knows

When I started yelling God over money I was dead broke  
But they say that's kinda easy when your ends low  
Went to Cali came back in a Benzo  
Notice I ain't say the year but my friends know  
Whippin' in my '96 like it's '94  
Low cash no tag but I'm riding though  
No insurance on this bad boy I drive slow  
Paid tithe gave God His off the top though  
Lord you know I try to stay obedient in hard times  
That's how He get to seeing where your heart lies  
I follow in your word cause my heart lies  
As I get to flippin' through the sin in my archive  
Feeling like I came so far now I'm so deep  
Err'body feel I'm so strong but I'm so weak  
Shooting up this mountain so fast am I gon' peak  
If I don't put myself on blast are they gon' see  
My confession the realest thing I ever wrote  
Now it's past say thickest chain He ever broke  
Some'll dis it some'll listen like He hell it though  
I just wanna do what God say nothing less or more  
Fell once I repented then I fell twice  
That's what this christian war like in real life  
Up and down what this roller coaster feel like  
But I ain't givin' up I'm a still ride

What goes up must come down  
Round and round  
Still we ride till we fall  
Ain't got nothing  
In my past that can hold me  
So we ride till we fall

(I'm still ridin' I'm still ridin'  
I'm still ridin' Father I'm still ridin'  
They try to throw me off but I'm still ridin'  
Ridin' till I'm gone I'm still ridin')

I was livin' like a King before billboard and ASCAP's  
Still ignoring rappers I don't feel 'em more than half that  
Garbage that they spittin' I'm on mission livin' past that  
The weak lines and ignorance are both you cannot mash that  
But I can't front and say that I got it all together though  
Honestly in my heart I be feeling less then low  
But they tell me I'm the next to blow should I ignore 'em  
Cause I do believe the critics through rappers who be on forums  
I see a ride I'm in love with this say what I want no publicist  
Hit the stage and get an 808 I wanna see the place turning up to this  
Long night long night vibin' out to my headphones  
Get right light it up better take the pic with your cell phone  
Respond to the crowd when the public come through  
Never knew what the new kid is gon' do  
Ignore the hate and accept love better get the work for His kingdom

Can't debate that we rise above cause earth ain't all that we from  
It's more then saying that I'm a christian I gotta be one
