

# Way Up

Bizzle

GOM  
Put on for the squad  
We go in  
Do it for the GOD  
If I go  
Then I'm going hard  
Boy you know me  
HOG for the MOB  
Fit up then get up and go  
Fill up to pick up and roll  
You gon' get this work  
Get lit up and hit up the show  
Man they already know who the real is  
But they say it's too religious  
Drake dropped "God's Plan"  
You were wit it now you lookin' too suspicious  
I am blessed  
Never had luck  
You a tad much superstitious  
You ain't the man bruh  
Cuz you pick a bag up boy what you doin' with it?  
Stack up and you be cool and then ya  
Get ya hands cuffed and you get threw in prison  
It's the last supper  
You could have some  
Or you could pass up and you do the dishes  
Homie I ain't never change up  
Been the same since day one  
When I came in the game rippin' Jay  
The Renegade still the same ain't budge  
Then and when it came Same Love  
They played dumb and ain't say much  
You tell me who's the gangsta?

Daddy let me loose  
They gotta move  
Bishop with the burner baby  
I got the juice  
They hatin' on my team cuz we the truth  
Won't He do it  
And we the proof  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up

Yeah  
First drop they were like Biz who are you boy get your name up  
Try to hold me down but you know me know  
Look at God I done came up  
They were lookin for the sauce  
I was cooking for the boss  
Now I'm A-1  
Try to keep us out the game  
We gon' make it so the game got a changeup  
Show love to the haters ay  
Been tellin' where we came from

One time for the Maker ay  
Same team ain't trade up  
Christ gang ya don't bang ay  
I stay in my lane ay  
Metal tucked like a umbrella but  
I pray it don't rain ay  
Promise I don't want no smoke  
But that ain't really what you want too  
Cuz everybody got they own folk  
That'll make a move if you want to  
The problem is you prolly think I'm afraid  
In a way that's so true  
But I ain't afraid you'll smoke me  
Dog I'm afraid I'll smoke you  
I ain't the only one with a family  
That I gotta make it home to  
I need you to make it home too  
They need you to make it home too  
Cats flex for the rap check to make black death look so cool  
We just here to make it old news yeah

Daddy let me loose  
They gotta move  
Bishop with the burner baby  
I got the juice  
They hatin' on my team cuz we the truth  
Won't He do it  
And we the proof  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up

Ay  
Fo Christ pay the whole price  
On my whole life no cheap skatin'  
Glow like there ain't no light  
No ice but I'm peace makin'  
HOGs grind boy I eat bacon  
Fault lines so I keep quakin'  
And the way I make these bars connect  
I'm a architect no Freemason  
Ah  
We baboons to them poodles  
I need lots of steak on my pasta plate  
I go swagu on them noodles  
We go rounds for that gold crown  
We don't slow down we accelerate  
Keep tellin' Satan I'm elevatin'  
Even though he be hella hatin'  
Step your game up and quit bellyachin'  
Go hard then hit the casa brah  
Yo double up ain't no bubble up you ain't no hustalah  
Huh  
See I'm in the game like a right guard  
You could lock me up in a psych ward  
And I'll still be screamin' out "Christ's Lord"  
String me up by my mic chord  
Really it will be a honor to go  
Cuz the way that they be jokin' about your word  
Got em thinkin' the Church is a comedy show  
Never been and I'll never fold  
If they snatch me up or I'm dead and cold

The gospel of Yoshua's still the greatest story ever told

Daddy let me loose  
They gotta move  
Bishop with the burner baby  
I got the juice  
They hatin' on my team cuz we the truth  
Won't He do it  
And we the proof  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up  
We gon' take 'em way way way way way way up
