

## We Here Now

Bizzle

Yeah  
It's been a long time coming  
We here now  
We here now  
We here now  
We here now  
You hear that?

They wanted me to fail, dead and living in a cell, But to minis  
ter the only way to get me in a jail  
Made it past 25 and I'm doing pretty well, on my way to heaven  
while I'm here I'm finna give em hell  
I ain't ever bow down to these devils in the game, pro'ly never  
see the most high levels in the game  
But I'm for the MOST HIGH homey never will I change, I don't pl  
ay by the rules I'm a menace to the game  
If I got a problem with it Imma say some'n, Stand bold on my fa  
ith and I ain't budging  
And I'm all for respect but I walk on the set with a cross on m  
y neck and I ain't chain-tucking  
Praise GOD, only way to go is YAHWEH, Ain't no other way to hea  
ven ain't no other gate  
I know they wanna hate, they prayin' Imma go away but not until  
HE returning and none of us know the day, and I got more to sa  
y  
I see the media playing us, they picking the most ignorant when  
ever portraying us  
You grew up black, you knew what it's like, they do it to CHRIS  
T, they muzzle the wise and somebody get the foolish a mic  
To make us all look crazy, they come up with topics, ask the cr  
aziest pastor that none of us rock with  
You thinking he a fool, we think he a fool too, but they tellin  
g you we agree with the fool's view  
Looking ready for the true church, we all church we don't just  
do church  
Pray for the feeble and sore, clothing and feeding the poor, lo  
ving the people and showing them they true worth, we ready to d  
o work  
But they saying it's a white man's religion forced on us by the  
master that white man invented  
Tell it to the Christians in Ethiopia, they never had to be ens  
laved by the white man to get it  
Careful what you putting in your ears now, hard to hear the tru  
th cause the lies talk real loud  
We yelling "JESUS" they yelling "chill out" ,Nah but you can te  
ll 'em that we here now

We here now, we here now, we here now

We here now, we here now, we here now

Tell 'em that we here now, we here now, we here now, we here no  
w

We here now, we here now, we here now

We here now
