

Get Me Back (U Won't)

BJ Lips

You're a stupid bum and you broke my heart
Can't believe I gave a drunk a chance
Lost in your bottle, you didn't know what you had
But you lost me for good now

Always numb, not a soul behind those eyes
Don't know why I let myself believe your lies
Ride or die, I was always on your side
But all you did is hurt me and make me cry

You've got me fucked up
Cryin' 'bout my bad luck
Baby, it's the last straw
You won't get me back again
You've got me fucked up
Cryin' 'bout my bad luck
Baby, it's the last straw
You won't get me back again

Blowin' up my phone, you're tryna get me back
But there's no undoing what you did
Lying to my face, you've got no shame
I can smell the whiskey on your breath

Telling me that you've changed
But you're just a stupid liar
Ride or die, I was always on your side
But all you did is hurt me and make me cry

You've got me fucked up
Cryin' 'bout my bad luck
Baby, it's the last straw
You won't get me back again
You've got me fucked up
Cryin' 'bout my bad luck
Baby, it's the last straw
You won't get me back again

You'll be alone forever
Tryna get us back together
But you know that won't happen
You won't get me back again
You'll be alone forever
Tryna get us back together
But you know that won't happen
You won't get me back again
