

I'll be your popstar  
I'll be your icon  
Dancin' on stage with my pretty skirt on  
I'll be your popstar, your popstar  
I'll be your icon, your icon

Baby, I'm obsessed with bein' the best for you  
Perfect hair, perfect makeup  
And when I get on set I always look brand new  
New tits, new body  
'Cause I could be your superstar  
And you could be my bodyguard  
Keep me safe in your arms  
And baby it'll be our secret

I see you in the crowd and I feel so shy  
Lookin' up at me, you're such a handsome guy  
You're my number fan and I love you too  
Just meet me backstage, I'll make your dreams come true

I'll be your popstar  
I'll be your icon

All the boys wanna see me  
On the TV screen as I shake my thing  
With my tight bikini on  
Lookin' like a playmate baby  
Take a picture of my body  
And caress me with your warm embrace  
Make my heart beat faster (Faster)  
As I hear you whisper in my ear

I see you in the crowd and I feel so shy  
Lookin' up at me, you're such a handsome guy  
You're my number fan and I love you too  
Just meet me backstage, I'll make your dreams come true
