

## Future Forever

Björk

Imagine a future and be in it  
Feel this incredible nurture soak it in  
Your past is on loop, turn it off  
See this possible future and be in it

Hold fort for love forever  
We're just momentary vessels  
We're just carrying

Trust your head around  
Guide your stare elsewhere  
Your love is already waiting  
You're already in it

Hold fort for love forever

Watch me form new nests  
Weave a matriarchal dome  
Build a musical scaffolding  
Between sleep and awake  
Day and night  
(Between night and day)

You say I mirror people's missions at them  
Now you mirror at me who I used to be  
What I gave to the world  
You're giving back at me  
Hold fort for love forever
