

Eaze My Mind

Blac Youngsta

(D.A. got that dope)

I need you by my side (Side)
Tell me you down to ride
We party every night (Night)
I do drugs to ease my mind (I do drugs to ease my mind)

Shot when I re-up
Reach for my chain, get you beat up
Push-button start, put the key up
These lil' niggas wanna be us
They don't wanna see us
Title my gang, get my D up
They don't ever call 'til they need us
You a boss nigga, we can meet up
I, I need all night
Need you in my sight
I'm in love with your vibes, ooh
Bad bitch wanna greet us
Rotel drip, wanna eat us
Lost, can I hop with the heat up
In a Maybach with my feet up

I need you by my side (Side)
Tell me you down to ride
We party every night (Night)
I do drugs to ease my mind (I do drugs to ease my mind)

Uh, I roll up to ease my mind
Use bustdowns to tell my time
Ain't my main bitch, you my side
Your diamonds is fake, it's fired
I'm like Jay, I can't retire
Got your dream girl in my live
I got V12s in my ride
Frozen pieces, you should slide
Wanna come on tour, never been before, so I'ma be her guide (I'ma be her guide)
Seen my crib online, said it look big as hell, she wanna see inside (Wanna see inside)
She a good girl, but a bad boy might be her type (Might be her type)
Thought her boyfriend was a man but really he's all hype
Screamin' my name at the light, she said she stayin' the night
Swear she through a rapper, she don't fuck with a savior light
Learned the game and I play it right
Girl, you know my name, we faded, but it's Young Khalifa, say it right

I need you by my side (Side)
Tell me you down to ride
We party every night (Night)
I do drugs to ease my mind (I do drugs to ease my mind)

How?
How the hell you gon' ride?
When you never come outside
But it's alright
I'ma pull up at a freak house on my free night

I might rap a lil' off but the beat right
And I'm a lil' too important for a street fight
I gotta eat white 'cause they ain't eat like me
Shoot (How many?)
How many niggas I came with to shoot?
How many bitches I tell that I do
Ice on my neck so I flew with the flu
Hang out the roof, Lamborghini coupe
I come from none so I act like a fool
When I come through, fuck on your boo
Any lil' nigga, he knew

I need you by my side (Side)
Tell me you down to ride
We party every night (Night)
I do drugs to ease my mind (I do drugs to ease my mind)
I need you by my side (Side)
Tell me you down to ride
We party every night (Night)
I do drugs to ease my mind (I do drugs to ease my mind)
