

Need Love

Blac Youngsta

(I got Hitman on the beat)

Searching for love too long, too bad I never found it (Uh, uh)
I need someone to heal my pain, better without it (Need)
Tried to touch her in her heart, she ain't allow it
Feel like somethin' tryna hold me down, need you around me

I've been feeling stuck
Girl, I need you around me so you can lift me up
Let me switch you from your Chevy to a Bentley truck
Your last nigga, he a lame, no, he can't fuck with us (Uh, uh)
I know you far from basic (Yeah)
Turn the lights down, need you right now, need conversation (Uh-huh)
Know you real, you held me down when I was in the basement
So I just need your love 'cause I know that's amazing
My fault, girl, I be tripping, sometimes I'm impatient
Just tell me that it's you and I
If I fall off, would you still be right by my side?
I'd rather you just tell the truth than lie (Yeah, yeah)
I feel my feelings dying, you brought me back to life
For all them hard times, you stuck around, girl, you deserve a trophy
Know that if I need you, you gon' answer, you won't leave me lonely
I gave you my heart, gave you my all, I let you really know me
I'ma treat you right, fuck all them niggas that you had before me (Yeah)

Searching for love too long, too bad I never found it
I need someone to heal my pain, better without it (Need you without it)
Tried to touch her in her heart, she ain't allow it
Feel like somethin' tryna hold me down, need you around me

I just need some love

I just need someone to treat me sort of like my mama (Mama)

I want more than a baby mama, want a wife, don't give me drama (For real)
You stay down with me, bae, you know I take you out that Honda
I get down on my knee, you hold my bricks, I call you mama
Been in the street so long, I done fell in love with the junk (Uh-uh)
I tried to leave it alone, I ran back to her 'cause I'm a junkie
You know I put you on, don't give a fuck 'bout who you under (Frirt)
I changed my life for you girl, so I can live this summer
So I can see you grow like a butterfly
Long as I'm alive, you know you can't fuck that other guy
Might go psycho and I send bullets in the sky (Gang, gang)
No one can never fall in love with you but I (Gang, gang)
You got a real one on your side, how you can't win? (How you can't win?)

I was tryna be your friend before I copped that Benz ('Fore I copped that)
You didn't know what that means and you just drove off in the wind (You just
drove off in that)
Now I'm starting to see that you didn't really have no friends (Now I'm star
ting to see that)
'Cause your friends, they fucked on me, gave me top in the Demon
I put flawless diamonds on my bitch, it match her skin (Gang, gang, gang, ga
ng, gang)
She allow me to talk to bitches as long as they got a friend (Long as they g
ot a friend)
Know I'm kind of fucked up 'cause it's fuck love in the end (Fuck love in th

I just want to ask Lord, can You wash away my sins?

It's fuck love in the end
Can you wash away my sins?
