

# Dissolve

Black Atlass

Wrote a note in my phone about how much I love you  
Everything that I wish I could say to you now  
All those nights spent alone that I wished I could touch you  
Baby I wish I was there with you now  
And down comes the rain inside of my head  
Yeah in all my dreams I'm drowning in bed  
Yeah baby

I dissolve in the water  
Like sugar on your lips  
I dissolve in the water  
Oh I could get used to this  
And I can't go on without  
Knowing what I need to do  
So I can dissolve  
Inside of you
