

# Exit

Black Atlass

Left  
Wondering about you  
My tropical flower  
You cut like a thorn  
And I can't speak  
Words about you baby  
You look like a movie  
You love like a freak

I was a bird  
Trapped in a rusted cage  
I was alone  
Until I saw you

Now we Exit  
Now we Exit this place  
Now we Exit  
Now we Exit this place

I was a fool  
Caught up in listless flames  
Dark as the sky  
Before an August rain  
The curves of the waves  
Matched up with your waist  
You looked like a movie  
Brought me through the screen

I was a bird  
Trapped in a rusted cage  
I was alone  
Until I saw you

Now we Exit  
Now we Exit this place  
Now we Exit  
Now we Exit this place
