

Falling

Black Atlass

A starry night
Oh how fateful
How you slipped right into my mind
A little tired
A little shaken
For you I'd leave my past behind

I've been around the world just to come back again
Speeding on a red eye
I'd do anything I can
To see you tonight
My love
My love
I'm falling into you
My love
My love
Fall into me too
My love
My love

A raining sky
How convenient
We had to keep our selves inside
Close and tight
I was dreaming
I'd never see the morning light

I've been around the world just to come back again
Speeding on a red eye
I'd do anything I can
To see you tonight
My love
My love
I'm falling into you
My love
My love
Fall into me too
My love
My love
