Fantasy

Black Atlass

In the night, you look good, you make me sick
And baby, don't tell me you wanted your kiss
And I'm a fool to let you in
Yeah, I think I'm gonna fall again, yeah

So baby, you have to prove it
Make me come for you, girl
Yeah baby, you have to prove it
Take me into your arms

Are you really in love me with me?
And do you want my company?
Are you just tryna pull this fantasy, your fantasy, your fantasy?
Are you really in love me with me?
And do you want my company?
Are you just tryna pull this fantasy, your fantasy, your fantasy?

Fell for you quicker than I could catch myself
I'm holdin' on to all the dots
And I'm a fool to let you in
Yeah, I think I'm gonna fall again, yeah

So baby, you have to prove it
Make me come for you, girl
Yeah baby, you have to prove it
Take me into your arms

Are you really in love me with me?
And do you want my company?
Are you just tryna pull this fantasy, your fantasy, your fantasy?
Are you really in love me with me?
And do you want my company?
Are you just tryna pull this fantasy, your fantasy, your fantasy?

Are you really in love?
Are you really in love?
Are you really in love?
Are you really in love?

Are you really in love me with me? (are you really in love?)
And do you want my company? (are you really in love?)
Are you just tryna pull this fantasy, your fantasy, your fantasy?
Are you really in love me with me? (are you really in love?)
And do you want my company? (are you really in love?)
Are you just tryna pull this fantasy, your fantasy, your fantasy?
