

Nothing Else

Black Atlass

Damn
Too long on this island
And I feel like she is inside of my mind
Nights full of vices
And I feel like I'm loosing track of time

I've got to be going now
Going now
Going now
Leaving
I've got to be going now
Going now
Going now
But she says

I wanna give you myself
You need nothing else
I can be something you've never felt
Yeah I got you

Never be alone again
Never be alone again
Never be alone again
Never be alone again

Damn
Too long on this island
And I feel like she's looking through my eyes
And I can't deny it
Yeah I like the way that she lays me down

I've got to be going now
Going now
Going now
Leaving
I've got to be going now
Going now
Going now
But she says

I wanna give you myself
You need nothing else
I can be something you've never felt
Yeah I got you
