

Return To Love

Black Atlass

Set that flame down, darling
Before you burn up
And keep it locked out your soul
Return to Love

And I know what I wanna be
But baby do you?
Your smile can set you free
Return to Love

Return to Love

Set that blade down, darling
Before you kill us
And keep it locked out your soul
Return to Love

And I know what I wanna be
But baby do you?
Your smile can set you free
Return to Love
