

Head in, I'm gassin' on 95, I've been  
Whippin' the Wraith into overdrive, I am  
Twenty more minutes to lay low, I need  
You in the passenger by my side, with me  
This is the life that we chose  
Until we overdose  
And all I want is more  
There's no stoppin', baby

Don't you know that I've been on the low?  
Then I just keep waitin', you ain't home  
'Cause this is

Sin City, Hollywood, come and get a taste  
Downtown late nights, we can never change  
I like when the lights stands across your face  
Sin City, Hollywood, it's the life that we chose  
Until we overdose  
And all I want is more  
There's no stoppin' us, ooh

Touched down I've come to collect  
I just can't settle for less  
Late nights with no regrets  
'Cause we're on and we're on and we just  
Don't stop baby, it's here for us to take  
We don't fuck around, we don't have no time to wait  
Use this I pain I got and I trust in fate  
We don't fuck around, we don't have no time to wait  
Didn't wanna break those hearts, but it just happened that way  
I just wanna fall in love, I don't care what they say  
Let's just take it to the edge, we didn't come to play  
We can never take it too far 'cause this is

Sin City, Hollywood, come and get a taste  
Downtown late nights, we can never change  
I like when the lights stands across your face  
Sin City, Hollywood, it's the life that we chose  
Until we overdose  
And all I want is more  
There's no stoppin' us, ooh no
