

Sweet Summer

Black Atlass

Get up now baby
Let's go out and play
It's dark outside
The street lights light our way
Oh now I'm in love with every part of you
Cool blue eyes
Reflecting off the August moon

Sweet Summer time
Please stay in my heart
Don't let us fall apart
Oh sweet Summer time
Please stay in my heart
No matter what they try I'm yours

West Coast calling
My blacked out Chevrolet
Roads open wide
The sunset lights our way
Oh now I'm in love with every part of you
Cool blue eyes
Reflecting off the August moon

Sweet Summer time
Please stay in my heart
Don't let us fall apart
Oh sweet Summer time
Please stay in my heart
No matter what they try I'm yours
