

Tangerine

Black Atlass

You gave me more than life
Two spirits never die
Oh we don't have to run my dear
No we can fight the world from here

Tangerine give it all to me
I need you in my dreams
I wanna dance into forever
Just take my hand and we'll go together
Won't let you down
My heart is all for you

American desire
Two hearts in love on fire
They all ended up in tears
But I will never die in fear

Tangerine give it all to me
I need you in my dreams
I wanna dance into forever
Just take my hand and we'll together
Won't let you down
My heart is all for you
