Girls guide for the modern diva  
Girls guide for the modern diva  
I swear by Almighty God  
To do my duty for Queen and Country  
So fasten your seat-belts, enjoy the ride  
I'll be your hostess, this is the girls guide  
All you gotta do to be a real diva  
Is sit in silence, dripping diamonds in the back seat  
Of a limousine  
This is the cut-out-and-keep, read-it-and-weep  
Guide for the real diva  
Speeding through the night  
You don't need to watch the stars  
Speeding through the night  
You don't need to watch the stars  
Our Father, who art in heaven  
Give us this day our daily tension  
I promise to the Lord Above  
To be your one true, unrequited love  
All you gotta do to be a real diva  
Is stylise, mythologise  
Re-write your history  
Crush any fool who has the nerve to say  
They used to know you  
Speeding through the night  
You don't need to watch the stars  
Speeding through the night  
You don't need to watch the stars  
Stars, ah, ah,ah  
Stars, ah, ah,ah  
Stars, ah, ah,ah  
Stars, ah, ah,ah

My jealous God here's some advice for you  
You're not on the list? Get to the back of the queue  
So now you know how to be a real diva  
Is sit in silence, dripping diamonds in the back seat  
Of a limousine
