I.c. One Female

Black Box Recorder

- I.C. one female turn the sirens on Just a small domestic situation
- I.C. one female under surveillance Heading northwards as the crow flies

But I still love you, I bloody well love you

I.C. one female not making any sense
Don't think she realizes the trouble that she's in

But I still love you, I bloody well love you I still love you, I bloody well love you I still love you, I bloody well love you to death

But I still love you, I bloody well love you I still love you, I bloody well love you

National hysteria, a final warning She's heading northwards as the crow flies

But I still love you, I bloody well love you I still love you, I bloody well love you I still love you, I bloody well love you to death

- I.C. one female, I.C. one female
- I.C. one female, I.C. one female
