

Access Granted

Black Buddafly

Ahhhh uohhhh
Ahhhh uohhhh
Ahhhh uohhhh
Ahhhh uohhhh

Been waiting on this moment forever
We're from separate worlds I never knew knew (I never knew)
Mars collided into Venus (impossible you got me open)
You and I it's so unreal this love is (special)

He said: I got you where I wanted girl, got you where I wanted girl
I'll make you my official girl take you anywhere in the world
All you gotta do is give me green light and we'll be riding through space baby don't fight
The feeling, put your guard down and trust the sound of your heart

Access is granted to my soul, it's you and me
We own the planet I leave you in control, oh oh
Access is granted to my heart, I let you in
And give you all I got
Your access is granted let's rock

Oh oh uohhhh, oh oh uohhhh
Oh oh uohhhh, oh oh uohhhh

Crash the island of Jamaica
We're on a yacht making the ocean waters (ours for the day)
Your arms wrapped around my body (I can't deny you know I want it)
You and me we're on a ride let love keep (coming)

He said: I got you where I wanted girl, got you where I wanted girl
I'll make you my official girl take you anywhere in the world
All you gotta do is let it all go, I be directing the scene this is our show
We're all in, if you trust me, follow the beat of my heart

Access is granted to my soul, it's you and me
We own the planet I leave you in control, oh oh
Access is granted to my heart, I let you in
And give you all I got
Your access is granted let's rock

Oh oh uohhhh, oh oh uohhhh
Oh oh uohhhh, oh oh uohhhh
