Black Buddafly

I'll say what I want I get what I want I deserve someone
Who will love me enough to go out of his way
Make sure that I am ok, and that I matter
Time for me to come, first cause I am done
Giving it ain't fun being the only one
Fighting to keep it going
I'll make sure he's all in, before I ever
Let a man take me for granted
Need someone who'll set a date and then he plans it
And if not, I'll
Run then I run then I run neva come
Back no no no no I learned my lesson
If he don't see what he got in me
Acting like he is the catch oh please

FOH I'm turnin' the page tonight
(Fuck outta here)
I can't stay baby you can play but not
(But not with me)
I'm your gain if you don't feel the same then I
(If you can't see)
Close the case you gotta go and treat me right
Or get the fuck out

I've been on my shit, on top of my list
Is to treat myself, like the queen that I am
And if men just can't see all that I see in me
Then I don't need one
But lemme be fair, I'm not tryna scare
You away instead I dare you do
Be all that you're claiming to be
Since you say you want me
Let the challenges begin come win me over
Nothing worth having comes easy but you know what
It's alright
I'll run then I run then I run neva come
Back no no no no I learned my lesson
You seem to not see what you got here
Acting like I need to prove, was I not clear?

FOH I'm turnin' the page tonight
(Fuck outta here)
I can't stay baby you can play but not
(But not with me)
I'm your gain if you don't feel the same then I
(If you can't see)
Close the case you gotta go and treat me right
Or get the fuck out

I'm worth it, I'm worth it
I deserve it, I been hurt bit
Too much I know this might
Sound a little harsh but I had to wake up
Been thru it, allowed it, now I'm about it
No chances, no access granted
No more romance if y'all niggas can't be men

FOH I'm turnin' the page tonight
(Fuck outta here)
I can't stay baby you can play but not
(But not with me)
I'm your gain if you don't feel the same then I
(If you can't see)
Close the case you gotta go and treat me right
Or get the fuck out
