

## Like a Bullet

Black Buddafly

What happened to the way that we were  
Did it just not work out  
Did I miss you moving on to her?  
And why are u right here right now?

You keep sayin' what u don't want (but u on)  
Something when u round me (I'm the one)  
To make u feel something  
(When I'm gone)  
You stressed and lonely  
(Like what is wrong)  
I could be tripping  
(I don't know)  
Maybe I'm just  
In (another realm)  
Thinking u want us  
(Like I do)  
Daydreaming round what's  
(Really the truth)

Baby just to be fair  
Admit what we got is rare  
Cause I don't wanna be, I don't wanna be dumb  
But if this ain't 4 you  
Give me a sign and let lose  
Just get rid of me  
Like a bullet in a shotgun

What happened to u saying u high  
When I give you that smile  
Did it just fade away in no time  
Or was it not, 4 me, to keep, in mind

You keep sayin' what u don't want (but u on)  
Something when u round me (I'm the one)  
To make u feel something  
(When I'm gone)  
You stressed and lonely
