

Match Made

Black Buddafly

We are a vibe, we come alive
When we around each other every time
U touch my hair, boy I don't mind
Babe u can do whatever u like
I let u in, you make my day
From day one, you stepped up to the plate
We are that match made match made in heaven

Lately I've been feeling alright babe, oooh
Just like the sunshine you giving me light babe
So come and keep it hot, don't stop
Keep the good vibes up
Can't get enough of all that you are

And I know
That ever since I laid my eyes on you
We are

We are a vibe, we come alive
When we around each other every time
U touch my hair, boy I don't mind
Babe u can do whatever u like
I let u in, you make my day
From day one, you stepped up to the plate
We are that match made match made in heaven

And just when thought I was done I was done with love
Stepped into my world and you showed me what a real man outta be
You don't throw no empty words you walk your talk babe
And I'm thankful you show them how to be great
In all ways

And I know
That ever since I laid my eyes on you
We are

We are a vibe, we come alive
When we around each other every time
U touch my hair, boy I don't mind
Babe u can do whatever u like
I let u in, you make my day
From day one, you stepped up to the plate
We are that match made match made in heaven
We are that match made match made in heaven
We are that match made match made in heaven
