

# Never Say Goodbye

Black Buddafly

Stay on my side babe  
Can't take another lonely night  
I can't deal if you turn away  
Although I'll see you in no time

Need you now like the air I'm breathing  
Need you like I need eyes for seeing  
Even if I'm sleeping  
Your embrace takes me in  
Your love makes me fall  
You've broken my walls  
And I don't need you to be perfect at all  
Just stay right here forever

And don't leave, don't go  
Although they say when you love someone  
You must let 'em go  
To see if they come back  
Oh no

I was made to love, was made to love  
And I'm so glad I found you  
It's crazy love, that craziest one  
I'm willing to be down for  
Only you, I'm alright, say the word  
Let's make some kids while we travel the world  
Tattoo our names, I'll get yours and you mine  
It's that once in a lifetime  
So never say goodbye

And if one day you'll go  
I swear I'll put my life on it  
I will make you see me as soulmates  
I'm serious, boy, I won't quit  
Yes, I may be selfish but listen  
I'm also here to give you all you been missing  
Best believe that I've come  
To make you see I'm the one

And don't think again  
About who else could be up there  
I'll be all lovin' and more

I was made to love, was made to love  
And I'm so glad I found you  
It's crazy love, that craziest one  
I'm willing to be down for  
Only you, I'm alright, say the word  
Let's make some kids while we travel the world  
Tattoo our names, I'll get yours and you mine  
It's that once in a lifetime  
So never say goodbye

Never say, never say, don't say goodbye  
Never say, never say, don't say goodbye  
Never say, never say, don't say goodbye, oh-whoa-whoa  
Never say, never say, don't say goodbye

Never say, never say, don't say goodbye  
Never say, never say, don't say goodbye, whoa-whoa-oh-oh

I was made to love, was made to love  
And I'm so glad I found you  
It's crazy love, that craziest one  
I'm willing to be down for  
Only you, I'm alright, say the word  
Let's make some kids while we travel the world  
Tattoo our names, I'll get yours and you mine  
It's that once in a lifetime  
So never say goodbye

Never, never say (never, never say)  
Never, never say (never, never say)  
Don't never, never say (never, never say)  
Never, never say (never, never say)  
Never, never say (never, never say)  
Never, never say (never, never say)
