

Something Old

Black Buddafly

It's as simple as calling me back when I left u a message
It ain't hard to show some effort when issues occur address it
But it's easy to be stuck in your ways
Thinking u don't have to change when the change ain't even major
I ain't asking for nothin' too crazy just want to be sure
Make me feel like I'm yours on the daily else what's this for
I ain't tryna play these games again
I jus want us on the same page so when

You got a minute think about
Communication
Respect
The way to make a
Sacrifice
So I
Don't lie
Awake at night

I'm wastin' my night away
Thinkin' bout what we could be
You got me losing sleep baby no
It's getting way too close to something old
I'm
Sexy wit an attitude
I got issues but I'm worth it boy
I thought u knew
What a shame I gotta go
It's getting way too close to old

I've been thinking bout how u react when I got stuff to say
When I only wanna make this work no fight necessary
We can talk it out, be grown about, u know me now lets do this
Are u with it?
I swear I had my last time wondering what we gon do, I need answers
Better now before I'm done and over u
2 night
Won't u get it right

Take a minute think about
Communication
Respect
The way to make a
Sacrifice
So I
Don't lie
Awake at night

I'm wastin' my night away
Thinkin' bout what we could be
You got me losing sleep baby no
It's getting way too close to something old
I'm
Sexy wit an attitude
I got issues but I'm worth it boy
I thought u knew
What a shame I gotta go
It's getting way too close to old

Boy I just want, that extra love
That make it right
Will never die
That overkill
One in a mil
That feeling brand new

I'm wastin' my night away
Thinkin' bout what we could be
You got me losing sleep baby no
It's getting way too close to something old
I'm
Sexy wit an attitude
I got issues but I'm worth it boy
I thought u knew
What a shame I gotta go
It's getting way too close to old
