

Lalala

Black Coffee

I can feel it overflowing
Ain't no limits, just keep going
I can't control what I'm feeling
Too deep in it, any minute (Yeah)

Wanna take you places that no one can find
Put my lips on you just to read your mind (Mind)
Let me take you all the way now
Let me take you all the way down like this (Hss, ooh, ooh)
Can I invade spaces that no one would try?
Put your hips on me, just a lick of wine (Wine)
Can we take it all the way now?
Can I take you all the way down like this? (Hss, ooh, ooh)

You give me reason
You give me reason to light up the place
You keep me going
Keep me rolling, goin' without the brakes
Bring back your love again
Bring back your love again, I'm in again
You got me open
Who got you frozen?, don't know what to say
You got the motion
You keep me flowing, let me ride the wave
Into the morning, until the daylight
Do it again, oh
Do it again, oh (Oh)
La-la, la-la, la-la, la-la-la
La-la, la-la, la-la, la-la-la
La-la, la-la, la-la, la-la-la

I can show you things that would blow your mind
Gotta live for now, leave the past behind
Ooh, your touch is like a drug
Let's make up for all the love that we missed
Can I invade spaces that no one would try?
Put your hips on me just to read your signs
Can we take it all the way now?
Can I take you all the way down like this? (Hss, ooh, ooh)

You give me reason
You give me reason to light up the place
You keep me going
Keep me rolling, goin' without the brakes
Bring back your love again
Bring back your love again, I'm in again
You got me open
Who got you frozen?, don't know what to say
You got the motion
You keep me flowing, let me ride the wave
Into the morning, until the daylight
Do it again, oh
Do it again, oh (Uh)
La-la, la-la, la-la, la-la-la
La-la, la-la, la-la, la-la-la (Oh-oh)
La-la, la-la, la-la, la-la-la (Oh-oh, oh-oh, oh-oh)

La-la, la-la, la-la, la-la-la
Will it be different than before?
La-la, la-la, la-la, la-la-la
Oh-oh, oh-oh, oh-oh
