

## Common Man

## Black Country Communion

Lord won't you help me  
Make it through the night?  
No one can hear me  
Lead me to the light  
You are the reason  
I am here today  
Love is the answer  
Take me far away

On my own I'm no better than  
All alone  
I'm a common man

Where are you brother?  
I'm feelin' kinda low  
Sister and mother  
I want to let you know  
Can't break the chain  
It comes from deep within  
Live through the pain  
That's underneath my skin

On my own I'm no better than  
All alone  
I'm a common man

Called by the Siren  
Down by the sea  
Ghost in the distance  
It's callin' me  
You are the reason  
I am here today  
Love is the answer  
Take me far away

On my own I'm no better than  
All alone  
I'm a common man

On my way  
I will all I can  
I will stay  
Just a common man
