

The Crow

Black Country Communion

Fly, I see you leave down by the gate
Why, you have to go you could not wait

Against the grain
Through everything
Get past the pain
Upon the wing

Rise, into the sky you pull away
Wise, I wonder why you could not stay?

I will not fail
You hold my stare
High on the trail
So unaware

Oh, sometimes quick and
Sometimes slow
So down Deep, I wanna go
In my Grace leave no shadow
I find myself beside the Crow

Strong, hear you come from miles away
Oh Long, behind the Sun to face today

Against the grain
Through everything
Get past the pain
Upon the wing

Oh, sometimes quick and
Sometimes slow
So down Deep, I wanna go
In my Grace leave no shadow
I find myself beside the Crow

Lord, you could not take away my fate
Cry, and now you get away I wait

I will not fail
You hold my stare
High on the trail
So unaware

Oh, sometimes quick and
Sometimes slow
So down Deep, I wanna go
In my Grace leave no shadow
I find myself beside the Crow

Oh, sometimes quick, sometimes slow
So down Deep, I wanna go
In my Grace leave no shadow
I find myself beside the Crow
