

IM EARTH

Black Dresses

I got the nuked out brain, I'm Earth
I'm in the shit, I'm in the dirt
I'm so boring, put the girls to sleep
I run away but they keep following

"Okay, so it's kind of like..."
My soul won't stop producing slime
I feel it in me all the time
Can I have another one, recycle mine
"Um, hold on..."
Melt into the earth and fertilize
"Fuck it."

I got the nuked out brain, I'm Earth
I am the worstest of the worst
I'm so boring, put the girls to sleep
They think it's funny but I'm never free

What did I do to incur
A body that just screams and dies and hurts
I feel like a kind of human curse
"Umm"
Annihilation is my thirst
"So good"
