

# Let's Be

## Black Dresses

Check

Check

Ok

Ok

So much pain, but there's still time

Believe there's still good in the world or you'll lose your mind

Let it rip

All this shit

Never asking who the fuck we're ripping on

Who the fuck

Knew what's up

Sucking blood until the fucking break of dawn

Try to live

Try to cope

Try to guess

Try to know

Try to hope

Try to bear your soul

No choice but degenerate faggot mode

No choice like a choice with no control

Let's pray until the gods get tired

Set fire to the drums on fire

Core out heaven like the cure

Only if you're sure

I could put you in a square

Yeah

Everybody wants to know the truth

Everybody wants to do what you could do

If they could see what you could do they wouldn't want to be you

No truth

No truth

Like a swollen bruise

Like a broken tooth

No truth

No truth

Like a bleeding wound

Like a tongue removed

Let's get it on

But I'm a body

Let's get it on

But I'm a body

Let's get it on

But I'm a body

Let's get it on

But I'm a body too

Give up on what you wanted

Never give up on what you thought was true to you

Unless you find some kind of other truth that means something to you

Never give up on what you wanted

Never give up on what you wanted

Even if it's stupid

God is stupid

Let's be

Stupid:

God is here
