

# WATER

Black Dresses

All the water in the world, all the money in the world

All the water in the world, all the money in the world

Can you really take it with you?

All the water in the world, all the money in the world

Can you really take it with you?

All the water in the world, all the money in the world

I don't know, I don't know what it's gonna look like

All I know is that nothing's gonna be alright

It'll kill you first, it'll kill you slow

When? When? I don't fucking know

I don't know, I don't know what it's gonna look like

All I know is that nothing's gonna be alright

It'll kill you first, it'll kill you slow

When? Right now, bitch

You know

Can you really take it with you? (Okay, sure)

All the water in the world, all the money in the world

Can you really take it with you?

All the water in the world, all the money in the world

Can you really take it with you? (Can you really take it with you?)

All the water in the world, all the money in the world

Can you really take it?

Can- (Laughter)

Fuck

One day in the future, I pray things will be alright

I pray everybody poisoning water and hoarding resources will die

And I wish we had the time to talk it out

But we don't have the time

As they kill us all, over and over when they never had the right

That thing is not a person, we can break that spell

We can always kill something that never lived

And if that doesn't work, someone might find out where you live

Your pictures are all on the Internet

Who'd really be afraid if the world ends?

Something that you might expect

2019, who's really left to be afraid of death?

Can you really take it with you?

Sorry- Sorry for what I'm about to say

I don't mean it, I really don't mean it, I don't mean it

I heard the government loves-

-I would really do some shit

I would really do some shit

All the water in the world, all the money in the world (Laughter)  
All the water in the world, all the money in the world (Somebody might do so  
me shit)  
All the water in the world, all the money in the world (Do some shit)  
All the water in the world, all the money in the world

I don't know, I don't know what its gonna look like  
All I know is that nothing's gonna be alright  
It'll kill you first, it'll kill you slow  
We know your names, we fucking know

One day in the future, I pray things will be alright  
I pray everybody poisoning water and hoarding resources will die
