

# Big Love

Black Eyed Peas

A day in a life of a kid in America  
Everyone's a critic, watch them criticize your character  
Everybody watching ya  
People love to stare at ya  
Everybody's greedy ain't nobody tryna share with ya  
Our leaders are embarrassing  
I think they need some parenting  
Tell me why they playing with the fire and the kerosene?  
Kids on the Percocet, trippin' on the medicine  
Call it like I see ya wit' some drugged up Americans  
Everybody's following  
Ain't nobody leading  
People lovin' guns more than cases and season  
And they say the reason is to protect their freedom  
But we don't believe 'em

'Cause all that we are  
All that we're made of  
Is big, big love  
Big, big love  
And all that we have  
All that we're made of  
Is big, big love  
Big, big love  
That's all that we are  
That's all that we are  
That's all that we are  
Is big, big love  
Is big, big love

When I was a young boy  
Used to hear the people say  
Power to the people but we them people nowadays  
We ain't never giving up  
Now we got our hands up  
We can't be, cause their hearts ain't big enough  
All we need is just us, hate got ya guessing  
War is the answer but really, what's the question?  
Money got 'em stressin'  
Fear got 'em flexin'  
Phones got our zone down  
Now we lose connection, please stand by  
It takes you and I to keep the hope alive  
'Cause we're living in a time where you're fighting to survive  
And all we need is love

All that we are  
All that we're made of  
Is big, big love  
Big, big love  
All that we have  
All that we're made of  
Is big, big love  
Big, big love  
That's all that we are  
That's all that we are  
That's all that we are

Is big, big love  
Is big, big love

Life is a blessing  
Knowledge is a weapon  
You should choose love instead of being reckless  
Candle in the darkness, hope changes the heartless  
Here's love to guide you I'll be there regardless  
Situation global, we're like in a rowboat  
Swimming up the river, so I can deliver  
Messages to masses, no matter your status  
Nothing's ever over, we believe in second chances  
Many people dying, governments are lying  
Stand for our rights and please no more violence  
Talk with the kindness, together we're united  
When we are one  
Nothing can divide us

All that we are  
All that we're made of  
Is big, big love  
Big, big love  
All that we have, all that we're made of  
Is big, big love  
Big, big love  
All that we are  
All that we're made of  
Is big, big love  
Big, big love  
All that we have, all that we're made of  
Is big, big love  
Big, big love  
That's all that we are  
That's all that we are  
That's all that we are  
Is big, big love  
Is big, big love
