

Off My Shoulders

Black Flag

So long, I've waited
So many times, I've doubted
It's off my shoulders
The weight is over
In the palm of my hand, there's a four-leaved clover
Somethin' feels good
I'm livin' life as I should

So long, I've waited
So many times, I've doubted my fate
If the sun sets before the day is over
I got it in my hand, my lucky four-leaved clover
Now my time is here at last
Can't take it from me, not so fast
Somethin' feels so right
Yeah, somethin' feels so good

So long, I've waited
The weight is o-over
I'm done feelin' bad
Bad times are o-o-over
Start to feel good
Started to feel right
Started to feel good
Started to feel alright

I cannot love it
You know that I don't
Nothin' to look back on
All of the skies are blue
So blue

Yeah, it's off my shoulders
Started to feel alright

So long I've waited
