

The Chase

Black Flag

The chase is on
And there is no more time
To meditate or boss
Articulate the cause
My coast is clear
I spilled your beer

The chase is on
And there is no more time
To vindicate a cause
Initiate a mob
I'm in for the kill
Blood will spill

You better run
You better run
You better run
Because the chase is on

You better run
You better run
You better run
Because the chase is on

There'll be no empty flats
When the chase is on
You better hang on tight
Because the chase is on
My coast is clear
I spilled your beer

You better run
You better run
You better run
Because the chase is on

You better run
Run, you better run
You better run, run, run
Because the chase is on
