

## To Hell and Back

**Black Flag**

Have you ever seen the standard for the gentle burgers club?  
No travel extra credit for the sake of a sacred cow  
No problems, no, the trees low, the tracks  
The real ones are those who have been to hell and back

Railed at you, railed at you  
Railed at you, railed at you  
Railed at you, railed at you  
Railed, I can't-

Like a sound  
Self-righteous, proclamation  
Rejection, just complications  
This is for those lousy peeps who have been to hell and back  
This is all for those lousy peeps who been hell and back
