If atoms are not solid, how'd I stand in the dirt?
Halfway between divinity and dirt
Around for a while, so I seen some dirt
Had hard times so I lived in the dirt
Things got hairy, I was dragged through the dirt
They never let you down, they like to dig up dirt
Yes, I was born commoner's dirt
In the neighborhood, they like to air their dirt

Once upon a time
1969

Stonepack '69
Us fools doing petty crime
Codeine, morphine, monk made wine
Time-traveling time
90 foot tall, 80 inches wide
Dancin' on the grave, slide down
Covered in razorblades
Praline, morphine

Well
We're waiting for the bus

When I was a child, I used to play in the dirt
Where I hailed from, life was cheaper than dirt
So many men can make it to the dirt
Double-crossed by the streets by treachery and dirt
On grizzly ends, searching for paid dirt
All the bad stuff happens in the dirt
Existential crisis, too much dirt
Seems I'm trapped here under planet dirt

Every new parent waits for the bus just so he can cuss
So fuck the bus
Well, I make a fuss
Fuck the bus

Dancin' on the grave, slide down
Covered in razorblades
Dirty bag, fun, fun, stuck on their own
Stuck on the slide with chewing gum
Come, come, come, go run, run, run
CD's not done
