

## Words

## Black Grape

I can see through your paper seal what's playin' later  
But the news is just getting older (watch this)  
Who's got what?  
Who's got the lot?  
The bubbles just about to pop

I got to know  
Which way to go  
Did you ever use words (did you ever? did you ever?)  
When you try to keep it clean  
Do you ever use words (did you ever? did you ever?)  
When you don't know what they mean

Well, open my eye, take a look at the sky  
The one that's beaming out the bucks (watch out)  
The other keeps a changing, always rearranging  
So, naturally rotating always is there

I got to know  
Which way to go  
Did you ever use words (did you ever? did you ever?)  
When you try to keep it clean  
Do you ever use words (did you ever? did you ever?)  
When you don't know what they mean

I got to know  
Which way to go  
Did you ever use words (did you ever? did you ever?)  
When you try to keep it clean  
Do you ever use words (did you ever? did you ever?)  
When you don't know what they mean

The mind is weak, but the body's strong  
I'll carry on  
The mind is weak, but the body's strong  
I'll carry on  
The mind is weak  
The mind is weak  
The mind is weak  
The mind is weak
