

You got further, a little bit further then fall, then you fall
You get further, a few steps further then fall, yeah you fall,
Yeah there ain't nothin', no there ain't nothin'
That can stop you and keep you from carry back home
Yeah there ain't nothin', no there ain't nothin'
It goes up and goes down and it's just how it does

Further, a little bit further we fall, then you fall
Further, a little bit further then fall, then we fall
There ain't nothin', no there ain't nothin'
There's no force in this world that will can keep you alone
Nothin' no, there ain't nothin'
There's no way we can feel if we never give up
There's no way we can feel if we

I feel the fear, it feels like a gun in my head
Let's move from round here, that soldier will make you stand th
is time
Say you were, I sold my body upon a grenade
Is it fast when it's flight?
That will do some' at the end of the nigh

Further, a little bit further then fall, then we fall
Further, a little bit further then fall, then we fall
There ain't nothin', no there ain't nothin'
There's no force in this world that will can keep you alone
Nothin' no, there ain't nothin'
There's no way we can feel if we never give up, never give up
