

# Ghost In Your Mind

Black Lab

On a bus in a dream I saw you  
You were beautiful  
A girl in a dress I could see through  
And the colors that surround you  
Like neon on the avenue  
The people all around you were dust in my eyes  
And I wanted to believe you  
The lies that I could see through  
But I never got between you and the ghost in your mind  
Yeah, the ghost in your mind.

It's there in your eyes  
There in your voice  
But you're far away  
You're far away  
It's there in your eyes  
There on your face  
But you're far away  
Far away

On a day like today I remember  
How beautiful you could be to me  
And the colors that surround you  
Like a prince had come and found you  
Picked you up and crowned you in the land of the blind  
And I wanted to believe you  
The lies that I could see through  
But I never got between you and the ghost in your mind  
Yeah, the ghost in your mind
