

# The Road

Black Lab

This is the ache inside  
This is darkness in my hand  
Keep me in line, keep me in line

So this is the road that I get lost on  
(It's a matter of time, it's a matter of time)  
A twist in the road and I'll be gone now  
(It's a matter of time, just a matter of time)  
(It's a matter of time, it's a matter of time)

Black, black is the tide  
Black water running down  
And I get crazy, I get blind  
Raise my hands and start to drown  
Throw me a line, throw me a line

So this is the road that I get lost on  
(It's a matter of time, it's a matter of time)  
A twist in the road and I'll be gone now  
(It's a matter of time, just a matter of time)  
And I know there's a place that I belong yeah (It's a matter of  
time, just a matter of time)  
(It's a matter of time, just a matter of time)  
And I know there's a way where I'll come home now (It's a matte  
r of time, just a matter of time)  
(It's a matter of time, just a matter of time)  
(It's a matter of time, it's a matter of time)  
(It's a matter of time, just a matter of time)
