

## Dead Meadow

Black Label Society

All alone at last Years go by so fast  
twisted and insane the house you built  
no longer the same,

Once you're there once you're there  
you can't come back,  
Nothing lives nothing grows, inside the dead meadow

Months keep rolling by  
Live another day then you die,  
Ghosts inside your head we choose our paths  
When all is down and said.

Once you're there once you're there  
you can't come back,  
Nothing lives nothing grows, inside the dead meadow

Once you're there once you're there  
you can't come back,  
Nothing lives nothing grows, inside the dead meadow.
