

From beyond all that I see  
Awaits a new reality  
Seek you truth forevermore  
The past is gone, it is no more

All this time you thought that you belonged  
In this world that could do no wrong  
As belief begins to sway and faith begins to fade  
I watch it all just waste away

Away  
Disbelief  
Away

Broken mind, lifeless soul  
And everything you need to know  
All I thought and believed  
The bleeding heart that could not see

All this time you thought that you belonged  
In this world that could do no wrong  
As belief begins to sway and faith begins to fade  
I watch it all just waste away

Away  
Disbelief  
Away

I took your hand without regret  
In time the lies would all be met  
The carried scars that shall remind  
What you think is real you may not find

All this time you thought that you belonged  
In this world that could do no wrong  
As belief begins to sway and faith begins to fade  
I watch it all just waste away

Away  
Disbelief  
Away

Disbelief  
Away  
Disbelief  
Away
