

Forever and a Day

Black Label Society

You say you've found
All that you lost
Just like a stone that sits
Upon the gathered moss
It's so easy just to walk away
It's so easy when you've got nothing
To say

All the shadows we cast
That fade away
Like seasons that change
That could not stay
I'll gather the tears that fall
Forever and a day

The sun that shined
Upon this empty hole
The warmth inside
The endless cold
It's so easy just to walk away
It's so easy when you've got nothing
Nothing to say
