

# Give Yourself to Me

**Black Label Society**

Give yourself to me  
For only then you will see  
For I am the skies up above  
Beneath and everything in between  
These oceans which harbor your sadness  
These rivers which carry your pain  
Give yourself to me  
For only then you will see  
You will see

Give yourself to me

I was here before the beginning  
I'll be here after the end  
Search yourself, you'll believe  
For only then you will see  
You will see

Give yourself to me
