

## Set You Free

Black Label Society

This passage of time  
For I have always been  
Through shadows of doubt  
Again and again

All that you wished  
All that you'd need  
Abandon your regrets  
And then you'll see

Take my hand  
Walk with me  
A world without end  
I'll set you free

Promises made  
The oppressor of lies  
The falsehood of truth  
That can never die

All that you wished  
All that you'd need  
Abandon your regrets  
And then you'll see

Take my hand  
Walk with me  
A world without end  
I'll set you free

Take my hand  
Walk with me  
A world without end  
I'll set you free
