

## Spread Your Wings

**Black Label Society**

Destroy this world and all it is  
This rain that falls just kill it dead

Bring your pain and bring all your hate  
Lord, I'll kill it all again

Oh yeah, spread your wings now child  
Never return hell before heaven  
Fore we all get burned

This poison that bleeds our souls  
Drown in yourself  
Can't you see what's going on
